Take a look at all the features implemented in this template and read short introduction how to use them. Select a feature from the left to jump to the details.

Client site JS Framework

All client side effects are written and optimized for the mootools framework. Our custom scripts take advantage of this framework to deliver the most reliable functionality in compact size. No Javascript library overload.

Mootools version

This template uses Mootools 1.11

Template download sizes

All scripts and images are fast loading.

- 81,1 KB - all images
- 58,0 KB - all images without logo
- 68,32 KB - all javascripts
- 25,72 KB - all javascripts without the mootools library

Isn't it really small? ;-)

Javascript Compatibility

All scripts are compatible with all modern browsers. More Information...
Also most Javascript features can turned on/off in the configuration. A turned off feature will not effect the template anymore.

Template Configuration

This template comes with an huge configuration to make it as flexible as possible and to fit all purposes. Features can turned on/off in the configuration. For example it's no problem to deactivate the Styleswitcher completely and to stay always with a fixed width.

```
/*** template parameters ***/
